Re: North Cache Conveyance Project by the Bridger-Teton National Forest

Dear Mr. Tidwell:

No one thinks this is a good idea. Even Bridger-Teton employees object; they told decision-makers in scoping comments the following:

- wait until capital improvement funds are available;
- short-sighted to sell public land to finance facilities;
- selling of public land to developer will reduce open space, and compromise water quality and habitat; and
- not our mission to sell public land.

We have enclosed the entire employee comment compilation for your review.

Please listen to your own employees and help us stop this.

Sincerely yours,

Charles L. Payne, Jr.
