Re: North Cache Conveyance Project by the Bridger-Teton National Forest

Dear Mr. Tidwell:

Public opposition piles up in response to our Forest Supervisor's attempt to justify her pending decision to auction prime real estate in downtown Jackson, Wyoming to a commercial developer. She wrote in her Guest Shot editorial in our local newspaper that *this sale is "appropriate and necessary" as a funding mechanism for Forest construction needs.* (Jackson Hole News & Guide, Jan. 13, 2010, p.5A).

In response, letters to the editor and this week's Guest Shot reflect unwavering public opposition (copies enclosed). But without your intervention, our Forest Supervisor seems even more determined to carry out her misguided scheme. Beyond its immediate harm, this type of FSFREA abuse only jeopardizes other legitimate projects under the Forest Service Facility Realignment and Enhancement Act.

Please help us prevent this.

Sincerely yours,

Charles L. Payne, Jr.
